

## Health Care Aide Challenge Certificate

Are you and “uncertified Health Care Aide”? Proposed changes to the health care system may soon mean that you will need certification. **If you have worked as an uncertified Health Care Aide for a minimum of 1200 hours in the last 24 months, you are eligible!**

Proof of Non-Violent Crisis Intervention training (or be willing to take course)  
 Certification can be taken through us at a reduced rate for participants.

Classes are from 6–9pm Tuesday & Thursday evenings; other arrangements can be made to accommodate training based on student need and instructor availability.

Please have your employer check off the following skills that are part of your current role:

**Prepared By:**

| Equipment used    | Personal Care Skills      | Other notable skills |
|-------------------|---------------------------|----------------------|
| Hoyer style lift  | Help in ambulating client |                      |
| Sit to stand lift | Repositioning clients     |                      |
| Ceiling lift      | Home care                 |                      |
| Manual transfers  | Assisting with ADL        |                      |
